

# Straw, wood or bricks?

A traditional tale is a story that's been told and repeated for many years until it becomes well-known and embedded in the culture. Additionally, there are other narratives such as 'fairy stories' or 'fairy tales', which are similar to traditional tales, but they tend to involve a more magical

element. Traditional tales are prominent stories in a culture that are passed down between generations and retold countless times. This term, we will read and investigate many different traditional tales, including the Three Little Pigs and The Enormous Turnip. In the tale, The Three Little Pigs, they use different materials to build their houses. This will

link with our science this term, which will be based around materials. Additionally, The Enormous Turnip explores harvesting crops in the Autumn as we continue to look at seasonal changes and natural materials.

Andy Goldsworthy is a British artist, known for his sculptures and photography. He is an environmentalist and strives to protect the environment. Goldsworthy makes sculptures with natural materials on sites in the UK and around the world. He has made them in forests, fields, cities, lakes and fields. They are known as land art. As well as making sculptures, Andy

takes photographs of his work over time to show how they change. The natural materials he uses have different properties and can be manipulated to create a variety of sculptures and land art.

**Materials**— what something is made out of.

**Natural**—things that appear in nature and not made by humans.

**Opaque**—you cannot see through an object.

**Transparent**— you can see through the object.

**Traditional Tale**— A fictional story or narrative that has been retold many times and embedded in the culture.

**Seasons** — each of the 4 divisions of the year (spring, summer, autumn, winter) marked by weather patterns and daylight hours.

**Deciduous trees** —the falling off or shedding of leaves at the end of a season or at a certain stage of development in the lifecycle.

**Evergreen**— having foliage that remains green for more than one season.
